Finding Australian Birds

Introducing a guide to the special birds found across Australia's vastly varied landscapes. This book covers over 400 Australian bird watching sites conveniently grouped into the best birding areas, from one end of the country to the other. The book provides a comprehensive 'Bird Finding Guide', listing all of Australia's birds with details on their abundance and where exactly to see them. It also includes the locations of specific birdwatching sites and information on accommodation and facilities near those locations. This book is of value to both Australian birdwatchers and international visitors, it will assist novices, birders of intermediate skill and keen 'twitchers' to find any Australian species.

About the Authors

Tim Dolby

Former Convener of BirdLife Australia in Victoria. He was the principal editor of Where to See Birds in Victoria, and previously organised the Twitchathon bird watching event. He currently moderates Birdline Australia and Birdline Victoria.

Rohan Clarke

Ecologist at Monash University. He has been involved in the discovery of over 15 avian species not previously recorded in Australia. He is a longstanding member of the BirdLife Australia Rarities Committee and sits on the editorial board for the journal Australian Field Ornithology.
